Director's Report –

- Mrs. Lavelle is beginning the process of replacing the orchestra dresses. The current ones are ten years old. She has secured a number of samples and is having students try them on. She will begin with the 21 NASH Chamber girls. These will be purchased with the money from the school budget. She will then write a proposal to request the school district purchase more during the 2017-2018 school year.
- Mrs. Lavelle is undecided on where the trip will be next year. She is considering Atlanta, which is the next location if she follows the traditional rotation of sites, but she is checking into others. The trip will be four days, Friday through Monday and the students will miss only one school day.

Closing – The meeting was adjourned.
